Links---March 14th is a big day!

March 14th is also a Pi Day and Save a Spider Day.

π Day

March 14th is a π Day for π is 3.14 short for 3.1415926. Archimedes of Syracuse used the Pythagorean Theorem to calculate π between 3 -1/7 and 3 - 10/71.

Save a Spider Day

Spiders look horrible to many people who suffer from arachnophobia. Actually there are only two spiders that pose risk to humans: the brown recluse and the black widow. Despite the ugly appearance, spiders do much more good than harm, including eating disease-carrying insects. Their venom has also been used to minimize the brain damage of stroke victims
